

Feecon Behera Associate Software Engineer

+91-8249462118 | [LinkedIn](#) | [Github](#) | mail2feeconbehera@gmail.com

SKILLS

- **Programming Languages** : JavaScript, SQL, Ruby
- **Libraries and Frameworks** : Ruby on Rails, React, Express.js, NodeJS
- **Tools** : Git, Jira, Postman
- **Other Skills** : MongoDB, Regular Expressions, Web Scrapping

EXPERIENCE

Associate Software Engineer

Feb 2024 - Present

Verisys Corporation

Hyderabad

- Built and automated web scraping bots to gather healthcare professionals' data from various sources, streamlining data collection processes.
- Utilized XPath and CSS selector techniques to interact with DOM elements and trigger JavaScript events, improving data extraction accuracy.
- Optimized data processing by implementing Ruby transformation logic and Regular Expressions, enhancing processing speed by 30%.
- Performed peer code reviews that helped achieving the quality work significantly by 95%.
- Collaborated with different stakeholders on Jira, then Azure DevOps as a part of agile development practice.

Associate 2

Apr 2021 - Oct 2023

PwC

Bangalore

- Headed the development of a scalable web application using Express/Nodejs, implementing best practices for maintainability and extensibility.
- Implemented RESTful APIs with Express Framework, reducing integration time by 20% through seamless external service integration.
- Utilized Postman for API testing, accelerating development cycles, and enhancing software quality.

PROJECTS

Content Development Project

- Improved data collection efficiency by 30% by building Verisys Bots for crawl jobs.
- Streamlined data acquisition processes by developing web scraping tools for extracting business data.
- Increased accuracy by 20% by implementing regex strategies on data sources for mapping data.

E- Commerce Store (Backend)

<https://github.com/feecon12/Nodejs-Backend-Scaler>

- Created a backend application for an e-commerce store, enhancing user shopping experience.
- Developed a messaging system using nodemailer with Google SMTP for secure sign-in authorizations.
- Integrated Razorpay payment gateway, reducing feature development time by 80% and enabling seamless transactions.

Web Developer Portfolio (Frontend)

<https://github.com/feecon12/fme-next>

- Developed interactive web pages to engage users, providing a dynamic and immersive experience.
- Engineered smooth and animated transitions between pages, enhancing the overall navigation and user journey.
- Utilized Framer-motion and JavaScript animations to enhance content, reducing visitor effort by 20% and increasing engagement.

ACHIEVEMENTS

PROFESSIONAL CERTIFICATIONS

- Microsoft Certified: Data Engineer Associate
- Meta Certified Professional Front-End Developer
- AWS Certified Solutions Architect Associate
- Microsoft Certified: Azure Fundamentals

EDUCATION

Institute of Technical Education and Research Bhubaneshwar

2020

BE/B.Tech/BS in Electronics and Communication
